

## List of specialists in the field of gender dysphoria

Please note that all updates to the list will be highlighted in blue

**Important:** From 16 November 2009 the definition of a Registered Medical Practitioner changes. From that date it means a medical practitioner holding a licence to practise and not a medical practitioner registered with the General Medical Council (GMC). Any report prepared on or after 16 November 2009 and relied upon in support of an application for a Gender Recognition Certificate must be produced by a doctor with a licence to practise from the GMC. Not all doctors are now required to hold a GMC licence to practise.

### Registered medical practitioners (with a licence to practise)
